SIMATEK

Offerings

Bag filters

Our bag filters reduce emission, addressing dust and dust explosive environment and minimize product waste.

Bags & cages

Our bags and cages are designed to create a perfect fit to ensure easy and quick removal and replacement of the bags.

Controllers

Our technology enable optimal use of the filters and detecting of errors, and extent bag life which reduces OPEX.

After sales service & spare parts

We supply high-quality spare parts and after sales services to help in avoiding downtime and optimize the performance.

SIM/ATEK

Sustainability

Sustainability is in Simatek's DNA; providing clean air and minimizing product waste. To us at Simatek, sustainability is more than the environmental aspect, which is the reason we are focusing on ESG.

Environment

- Our own green house (Co2) foot print, energy consumption, airquality etc.
- Impact through our products and services

Social responsibility

- Employee working environment, health, safety, inclusion and diversity
- Our support in the community, access to our products in the world, product safety etc.

Governance and leadership

- Transparency around how we manage Simatek
- Specific efforts to change how Simatek is managed
